

THE BISHOPS AVENUE: LONDON

Barratt West London

CASE STUDY

Allingham Court is a stunning development in the heart of one of London's most prestigious roads, The Bishops Avenue, N2.

As an exclusive development of just twelve individual residences, the facilities at Allingham Court are the height of luxury living, featuring the grand gated security entrance, 365 days a year concierge, indoor swimming pool, health & fitness suite and tranquil landscaped water gardens. There is also 24 hour security and underground parking, managed by Harrods Estates.

In keeping with the development's luxurious finish, we opted for a superior range of fitness equipment. All cardio equipment came from the Life Fitness 97E range, each including an integrated television screen. A Fit3 Multi Gym was also installed, providing users with a full body workout. Floor matting for stretching, Swiss balls, a free weights bench and selection of free weights completed the installation.
