

Following a very successful camp during the Easter 2010 holidays, motive8 has progressed its offering to include a two week long summer holiday camp.

The camps are held at Collis Primary School in Teddington due to its fantastic facilities and central position in relation to a number of other primary schools in which we currently deliver schools sports provision.

The camps function as an extension of our extra-curricular provision and have been designed in conjunction with Olympic Sports.

The camps are geared towards fun, activity, sport and skill development. Children are given the

opportunity to make new friends, learn or develop sporting skills and generally remain active, expending some of the built-up energy they accumulate over the holidays.

All our camps can be designed to suit any sporting preference, from more traditional sports such as athletics, football and basketball to more unusual activities including international sports and lacrosse. We focus on promoting health and fitness to children in a way that appeals to them, using new and exciting games, sports and activities.

All our lead coaches are level 2 qualified as well as being CRB-checked and a specialist in their chosen field of sport.

“ My daughter had a great time at the motive8 Easter camp and will definitely be signing up for the next one. **Parent from Easter camp 2010** ”
